The 2021 CW/SSB Ultra-Marathon

As the new solar cycle is now under way and conditions on the HF bands are expected to gradually improve throughout 2021, this unprecedented initiative is launched to give DXers a further motivation to get on the air and therefore support, improve and promote amateur activity using person-to-person modes of communication such as CW and SSB. This initiative, which we call "ultra-marathon" for a reason, is indeed unprecedented – its aim, reflected in its format, is to get people on the air and make as many unique contacts as possible over the duration of a full year, and not simply to work as many countries as possible.

JX0X Jan Mayen –update

We have negotiated a vessel contract and are ready to sign it. However, the financial situation is such that individual donations have more or less have stopped. We fully understand that for many people Covid-19 is having an impact on their personal economy and life. Also, we know that our DXpedition to Jan Mayen is in exactly 1 year time from now, and people might think it is too early to support us.

A60EMM Emirates Mars Mission

The United Arab Emirates has officially entered the global space exploration race. This came after His Highness Sheikh Khalifa bin Zayed al Nahyan, President of the UAE, issued a decree to establish the UAE Space Agency, and began working on sending the first Arab and Islamic probe to Mars, a project named "Hope Probe". This makes the UAE one of only nine countries working to explore Mars.

The probe will start its journey in 2020, and is scheduled to arrive to Mars by 2021, in celebration of the 50th anniversary of the union of the UAE. The planning, management and implementation of the probe project are implemented by an Emirati team, whose members depend on their skills and diligence to acquire all space exploration-related knowledge and applying it. The program is fully funded and supervised by the UAE Space Agency, while the probe is being developed by the Mohammed bin Rashid Space Centre (MBRSC), in collaboration with international partners.
